ABOUT ME

Software Engineer
I bring over 3 years of industry experience in delivering high-quality software solutions. My expertise spans front-end development with AngularJS and React, as well as back-end proficiency in C#, .Net Core, and database management with MySQL and Oracle.
I am passionate about leveraging cutting-edge technologies to solve complex problems and drive business success. I thrive in a dynamic, challenging environments where continuous learning and professional growth are prioritised. My goal is to apply my technical knowledge and creative problem-solving skills to contribute meaningfully to an organization's objectives while fostering a culture of innovation and excellence.
